(given, are given)

C Read and complete the sorting table for how animals get food.

How to get food animals	In the wild 	At the zoo 
	Animals find food where they live.	Animals are given food by the zoo keepers .
butterflies	They eat nectar from flowers.	Nectar is put into trays.
gorillas	They eat leaves, nuts and fruit in the forest.	Food is put in different places so that they can find them.
giraffes	They eat leaves from the tops of trees.	Hay and vegetables are put up high.
pandas	They live in bamboo forests.	They are given bamboo to eat.
lions	They hunt and eat other animals.	They are given meat.
snakes	They catch small animals.	They are given small animals to eat.

pandas

gorillas

snakes

giraffes

butterflies

lions

D Choose a kind of animals above. Then draw and complete the sentences about it.

Giraffes

(What are they?)

In the wild, giraffes eat leaves from the tops of trees.

At the zoo, hay and vegetables are put up high by the zoo keepers.
