

Alpha Level 2

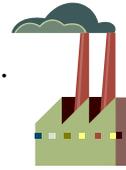

Old Cans and Cars

Written by Marilyn Woolley with Ray Sallah
Photography by Michael Curtain

A Write the correct words from the box.

1) A large building where machines are used to make goods.

2) A space in which a very hot fire is made.

3) A place within which any work is carried on such as gardening and piling.

4) A machine that makes things smaller.

5) A long, thin metal bar.

Word Box yard mill furnace factory steel rod

B Read the story again. Label the pictures.

collected

C Write the numbers in order.

The crushed and shredded cans and cars are cut into tiny bits of metal.

1

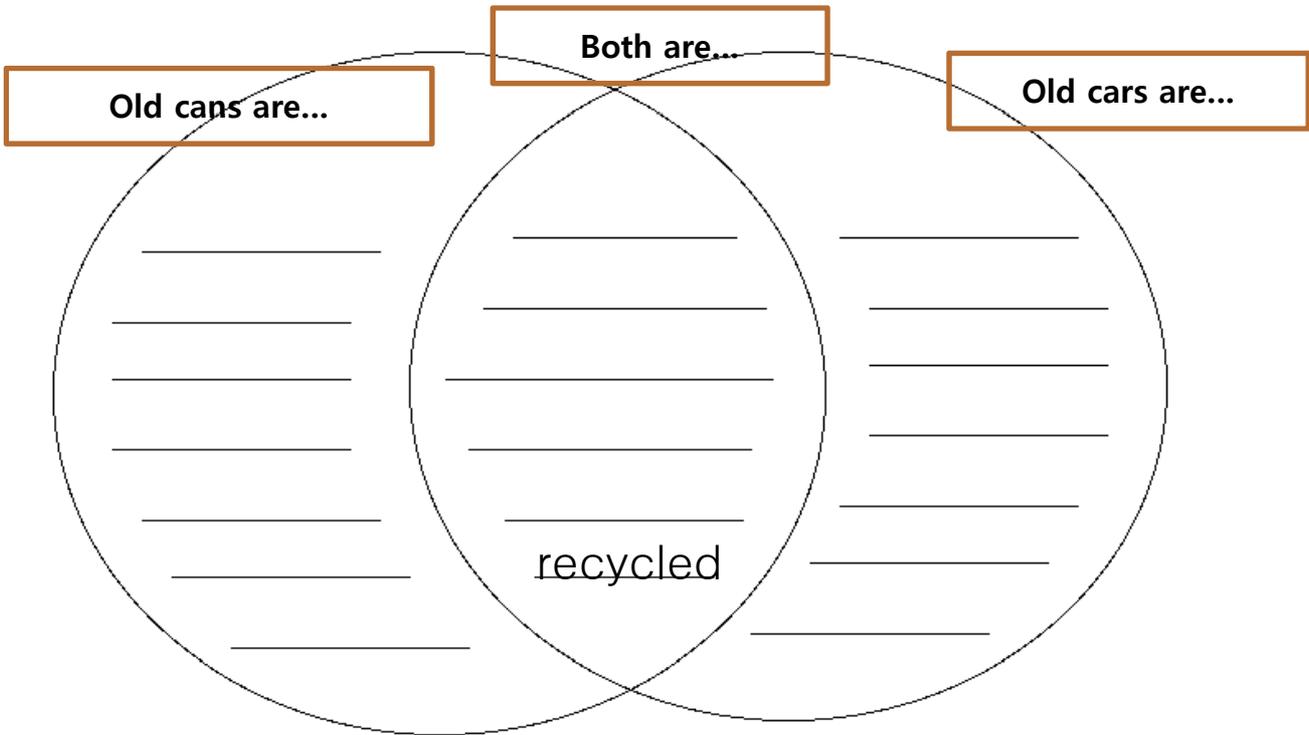

These steel rods are deliver to be made into new things.

The furnace melts the metal and poured into long blocks.

Then the long blocks are cooled down.

D What happens in the recycling process?
Complete the diagram using the words from the box.
