hospital / plane

Comprehension

C Complete the chart.

What is X-ray?	X-rays can pass through not <u>hard</u> things but <u>soft</u> things. They are used to see <u>inside</u> things.
At the Hospital	<u>Doctor</u> s use x-rays to see inside your body. X-ray pictures show if you have any <u>broken</u> bones.
At the <u>Dentist</u>	Dentists check hard parts of the mouth like <u>teeth</u> . They can see if you have any <u>hole</u> in your teeth.
At the <u>Vet</u>	X-rays are used to see if animals have any problem with their bones. If any broken bones are found, the vet will <u>mend</u> the bones.
At the <u>Airport</u>	Things like <u>gun</u> s and knives shouldn't go on the plane. X-ray picture shows if <u>suitcase</u> s and bags have those things.
X-rays and Machines	People can check safety of cars, trucks and planes. X-ray picture shows <u>crack</u> s or weakness needed to be <u>repaired</u> .

airport broken crack dentist doctor gun hard hole
inside mend repaired soft suitcase teeth vet

Expression

D Write and Speak

1) What things show up on x-ray picture?

⇒ We can see _____
soft / hard

2) Look at the x-ray picture and answer.
