Summary

Fill in the blanks with the words.

hurt	spiders	skin	cover
------	---------	------	-------

Tarantulas are 1) spiders. They make good pets. They are easy to take care of. They don't need a lot of room. You should never hold your tarantula. It might bite you. It can also make you itch. You could also 2) hurt your tarantula by holding it. Get a glass tank for your tarantula. It should not be too high. The 3) cover should let air in. It should also fit well, so your tarantula doesn't get away. Your tarantula needs a place to hide. It needs water and food, too. Give your tarantula crickets to eat. Do not give it crickets when it is molting. Tarantulas lose their old 4) skin when they grow. Even a small cricket could hurt your tarantula. Molting can last for two weeks. Tarantulas are interesting pets!
