## Summary

Fill in the blanks with the words.

dust	ruin	powerful	affect
------	------	----------	--------

Dust storms are 1) powerful. They happen when strong winds blow. The winds fill the air with 2) dust and sand. Dust storms happen quickly, and they move fast. It is hard to prepare for them. Dust storms are common in deserts. They can happen in other places, too. In 2009, there was a big dust storm in Australia. The red dust made Sydney glow. It scared people. Strong winds blow across Asia. The winds carry dust and sand from the Gobi Desert. The dust can reach China and Korea. It makes the air dirty, and people feel sick. Dust storms happen often in Arizona, too. Dust storms make it hard for people to breathe, see, and drive. Dust storms 3) affect nature, too. They make rivers dirty, kill plants, and 4) ruin farms. If a dust storm happens, move quickly. Go in your house. Close the doors and windows. You can watch the storm, but be careful!
