Summary

Fill in the blanks with the words.

landed	flows	erupted	meters
--------	-------	---------	--------

There are many tall things and high places in the world. The tallest building on Earth is the Burj Khalifa. It is over 830 1) meters tall. Angel Falls is the highest waterfall on Earth. Mr. Angel found the waterfall. He 2) landed his plane on it in 1937. After that, the world knew about the waterfall. Mauna Loa is a very big volcano. It is part of the Hawaiian Islands. Hot lava comes out of the volcano. Some lava 3) flows down the side of the volcano and cools. The last time Mauna Loa 4) erupted was in 1984. Mount Everest is the highest mountain on Earth. Many people try to go to the top of the mountain, but it is very dangerous. A lot of people have to stop and come back down. Some feel sick, and many people have died. People who have made it to the top say the view is beautiful!
