Summary

Fill in the blanks with the words.

igloos	sizes	palaces	neighbors
--------	-------	---------	-----------

People live in different places all over the world. They live in different kinds of homes, too. Homes come in different shapes and 1) sizes. Houses are built on the ground. They can have many rooms. Each room is used for something different. There can be many houses on one street. The people in the houses are 2) neighbors. Apartments are homes in tall buildings. 3) Igloos are made of ice, but they are warm inside. They have one big room. Homes that float on water are called houseboats. They must be tied to something to keep them from moving. Kings and queens live in very big homes called 4) palaces. Farm animals live in barns. What is your home like?
