- a. The water is dirty.
- b. The wetlands are very beautiful.
- c. There are more trees.
- d. There are no animals.

Summary

Fill in the blanks with the words.

grass	dirty	save	spring
-------	-------	------	--------

The wetlands are beautiful. Many animals live in the wetlands. They walk in the soft 1) grass. They swim in the water. They keep cool in the trees. Beavers, deer, birds, and bears enjoy the wetlands. They live together with their families. The bird does not live in the wetlands in the winter. The wetlands are too cold in the winter. In the fall, it says goodbye to its friends. The bird was surprised when it flew back in the 2) spring. Many of its friends were not there. The water was 3) dirty, too. People cut down trees and built tall buildings. There was no place for the animals. The animals need people to 4) save the wetlands. It is OK to visit the wetlands to look at their homes. But do not make the water dirty. Do not cut down the trees or take away their homes.
